FILM FESTIVAL

Take Action
Toolkit:
Our Climate
Crisis

- *Tell others* what you learned at One Earth Film Fest: word of mouth, social media, in an op-ed or letter to the editor
- Watch/rewatch past One Earth Film Fest films ([here](#) and [here](#)) & discussions ([here](#), [here](#), and [here](#))
- Change your mindset: Everything you do is related to the ecosystem!
- Spend more time in nature
- Join an eco- or climate justice group in your community; volunteer to protect our planet
- Lend support & resources to BIPOC and low-income communities disproportionately impacted by our climate crisis
- Support Black and Indigenous nature protectors with your voice, time, and dollars
- Support local food movements & food policy initiatives
- Support local organic farmers, buy organic, join a coop, shop at farmer markets
- Make space for those whose access to farms, gardens, and green spaces have been cut off due to environmental racism
- Don't purchase single use plastics or items
- Educate yourself on clean water + clean air policies
- REDUCE, reuse, compost!
- Talk to a neighbor or friend about climate change; combat climate change misinformation
- Speak up about injustice; teach the next generation
- Demand supply transparency across all items you purchase – beef and other forest-destroying commodities, personal care products, and more
- Drive less. Walk/bike/take transit more.
- Advocate for your local government to create a climate action plan, and then implement it individually, in your household and throughout the community
- Explore whether you can save money through clean energy: energy.gov/savings
- Learn from the library of One Earth 2024 Take Action toolkits at the link and QR code <https://bit.ly/oeff2024takeaction>
